### RELEASE INFORMATION

COLOMBO, Spanish producer and lover of the authentic Breaks music, returns to demonstrate an unmatched technique and style in this track titled "INZEKT", his last work for the label METAMORPH MUZIK, an Hypnotic Breaks track with strongly marked percussion and dragged bass-lines influenced by NuSkool Breaks, the perfect accompaniment to its dark melody that evokes the mysterious Egyptians sounds. One more time we complete the release with the view of KULTÜR, which has sought to respect the essence of the original track with a remix full of rolling bass-lines and a strong drum patterns, usual in the best Southern Spanish Breaks.

#### MMM06-1 COLOMBO : INZEKT (Original mix)

From his haunting melody to its powerful drum pattern, this track conveys the elegance and toughness necessary to become one of the best productions of the Southern Spanish Breaks thi 2010. Perfect for the dance floor, INZEKT shows once again the good work of COLOMBO in his compositions.

#### MMM06-2 COLOMBO : INZEKT (KULTÜR Remix)

Catchy combination of bass-line and drums in perfect agreement with the original composition. Its acidic melody does the rest in this excellent mix by KULTÜR that makes the choicest public crazy.

Favourite Track: Inzekt (KULTUR remix)

Rating: 3/5

Comments: The original is a nice minimal tech affair with a solid growling bassline. Kultur remix adds a great rolling bassline, turning it into a more groovy tune that works really well with the lead. Will rinse the Kultur remix this weekend and both on my show Great work guys.

Comments: Lovin the original mix of Inzekt! There's something about it that I can't quite put my finger on, but in the end, I guess the specifics don't matter, because it's fuckin great IMO.
