Black Acre Records make the journey from their Bristol home to London for their first ever label showcase at Corsica Studios on Saturday May 15th. Rinse FM and Black Acre champion N-Type heads up a line-up that includes two of the brightest talents to emerge from the Hip Hop and Dubstep scenes in the last few years, Blue Daisy (Live) and Raffertie. Fresh faces Pariah and Dark Sky plus Manchester's Synkro complete a line-up that demonstrates why Black Acre has been hailed as one of the most forward thinking record labels in the electronic music sphere.

The second room sees Warrior One celebrate the release of 'King Pigeon' on their own label. Joined by friends MC Serocee, much lauded newcomers Julio Bashmore and Doc Daneeka and London's premier purveyors of Dancehall The Heatwave expect everything from the freshest underground UK House music to the biggest bashment cuts.

Stream Raffertie's 'Train Wreck' mix for Red Bull Music Academy Radio featuring never before heard collaborations with Akira Kiteshi, Kanji Kinetic and a heap of fresher than fresh material from the man himself (we presume from his debut album). Also download his psychedelic refix of 'Forever And Ever Amen', the next single from The Drums.
