In an ocean of mid range averageness Bare Noize stand out. The duo have been making moves this year with their debut on Audio Phreaks and a number of high profile remixes for the likes of Foreign Beggars and Billboard chart-topping M'Black (check the video below). They recently uploaded a couple of new remixes to SoundCloud. Their reworking of UK beatsmith Medison's 'Harry' will be released later this year on the revived Dented imprint.
