

Dizziness Records here droppin' thick slabs of dark funky breakbeat mayhem here on "Doctor" from the one Shade K, again hittin' that booty-thumpin' headn-noddin' dancefloor business. Â It's just enough bro to get down but not losin' the ladies on the dancefloor with some addictively groovy basslines. Â The remix is Adrenalinez hittin' us with a splendid techy nuskool warble that will surely keep the breakers happy and warm this fall.
