Diesel Recordings release No.259 with the remixes for Vibes by British artist, Beat-Breaker. This time we have a tasty feast for Breakbeat and DnB lovers. 3 fantastic remixes for Vibes. Alt-A never disappoints and delivers a proper dancefloor filler for this release. His remix hits you hard with strong drums, deep bassline, lush piano sounds and mesmerising vocals. L2D2 brings a DnB beast to our table. Expect heavy bassline and fantastic drum work that go nicely with soft vocals. Soundclan don't stand out and deliver a great remix for this release. This one spits flames!! Be ready for heavy drums and roaring bassline!!
MUST HAVE RELEASE!!
