

Using the Zoom Q3HD?

Posted by jacks - 2011/08/02 08:19

Hey, I'm looking for a portable video/audio recorder to record my DJ sets for my website. I read the FutureMusic Zoom Q3HD review, and thought this could be a good option. Anyone else using a portable recorder? Flip, bloggie, the Samson Zoom line? Please let me know your thoughts.

Thanks!
