

Kristian Black - Infected Remixed NOW ON BEATPORT!

Posted by thegulfgateproject - 2016/08/08 13:25

Next up in Toast & Jam's Remixed series is Kristian Black's single Infected. We turned the job over to two of our favorite Spanish breakbeat producers Wardian and Aggresivnes and they crafted a couple of fire remixes for you. Wardian's remix kicks things off with a high energy breaks anthem, complete with a new piano line, a redone LFO'ed synth, and a killer new huge bass line. Aggresivnes brings the package home with a bit more of a low key vibe. He keeps it dark and funky with his own reworking of the bass line and a haunting new synth element perfect to take you right on into the sunrise. We hope you enjoy and many thanks as always for supporting Toast & Jam Recordings!
