

Detach - 2 AM *OUT NOW ON BEATPORT!!!*****

Posted by thegulfgateproject - 2017/06/01 16:47

If it's 2 a.m. and you're still awake, you're probably jamming to this hot new slice of breaks from our good friend and producer Detach. 2 AM features a female lead vocal edited over a hot lead synth with all the crisp, clean drum production you have come to expect from Detach. You'll want to give this track a proper rinse-out on the dance floor... but try to get some sleep eventually.
