### Displaced Paranormals - Secret Space LP

Displaced Paranormals debut album "Secret Space" is finally dropping on Inception Audio.

Experimental and creative sounds transport you through deep chasms of space.

Hand-stitched alien soundscapes seamlessly blend while still remaining unique and distinct to the Displaced Paranormal sound.

Serious drum sequence patterns wrap around crushing sub-bass music throughout, Simple but effective progressions

provide a balance between dancefloor and emotional transcending music.

With collaborating artists such as Torn, Picota & Kumbh, NoRules to name a few, this is a journey into sound.
