

DeiBeat - The Funky Sound **OUT NOW ON BANDCAMP!**

Posted by thegulfgateproject - 2020/11/06 14:24

The mighty DeiBeat is funkin' things up again, this time with his new single The Funky Sound. Setting the stage with an 808 kick, a chunky snare, melodic piano stabs, and the lead male vocal, DeiBeat rolls the track into the first break down where he layers in a female vocal and funky synth. At the drop we are introduced to a subsonic bass line that rides along with pulsating waves, accompanied by some new vocoded vocal elements. The drop on this jam is pure fire, another breakbeat masterpiece from a master of the genre.
