

The Gulf Gate Project - Top Gear Remixed *OUT NOW*

Posted by thegulfgateproject - 2020/11/10 03:32

To commemorate the remastered release of The Gulf Gate Project's very first track Top Gear, Toast & Jam HQ sought out a brand new batch of remixers to give Top Gear a 2020 spin. Kid Panel kicks us off with his down and dirty reworking, fusing the Top Gear melody with his signature production technique. We then shift gears to Retroid, who always delivers a progressive breaks journey through synths and strings. Rounding out the package, we turned to our friend Alt-A who used the Top Gear melodies within some brand new synth sounds to create a truly unique take on this classic Gulf Gate Project jam. As always, we thank all of our loyal fans for your support over the past 12 years and hope you enjoy these tasty Top Gear remixes.
