

Electric Draft - Minimal Rhythm Remixed *OUT NOW!*

Posted by thegulfgateproject - 2021/08/19 18:30

Toast & Jam's Remixed series is rumbling into the station with two more massive remixes this week. Wardian checks in with his remix and funks it right up from the first drop. Using snippets of the original vocal samples, Wardian chooses some ultra-funky 808 percussion to accompany his wonky wobbling bassline and rounds out this jam with a new scorching synth line. Next, the Mr. Big Mouth Remix uses a piece of the original synth line to set the chord structure for a spanking new tear-out sawtooth bassline. And the drums on this monster are absolutely huge. Two fantastic new tunes for your next set right here!
