

Beat 4444 - Knight Bass Remixed **OUT NOW!!!**

Posted by thegulfgateproject - 2021/09/16 19:04

Two more slamming remixes are coming your way from the Toast and Jam Remixed series. Shade K gets the party started with some acoustic guitars melting into the familiar theme, giving way at the drop to a bouncing bass line ready to rattle the bass bins right apart. The Chris Voro remix employs a healthy dose of the original theme with a stabbing syncopated synth bass driving the beat underneath. Add to that some well placed vocal samples and a massive kick/snare combo and you've got yourself one tasty jam!
