

Chevy One - Whip It Up **OUT NOW ON BANDCAMP!!!**

Posted by thegulfgateproject - 2021/11/09 20:07

Chevy One is back and is turning up the heat with his new track Whip It Up. A gnarly bassline chord progression is the focal point of this peak-time jam as a pitched down vocal chorus guides us through the breakdowns. To round out the melodic experience, a searing synth answers the bassline for maximum head-banging vibes. Don't wait to snag Whip It Up...this one's a belter!
