After over two decades of producing some of the most influential bass and breaks music in the business, Toast & Jam is honored to bring you a brand new remix by the legendary Freestylers. They tackled DeiBeat's Rise Up track for us and the results are exactly what we've come to expect from these guys, a dubbed-out, jungle-fied breakbeat jam that is set to join the ranks with the rest of the Freestylers' genre-defining tunes. Throw this jam in your next set and smash that dance floor!
