

Pointless Animals - Doors & Fours ***OUT NOW!!!***

Posted by toastandjamrecordings - 2022/12/11 05:16

Doors & Fours is the latest tune from one of our favorite new up and coming breaks producers Pointless Animals. Using his signature 808 kick for the bassline, Pointless Animals establishes the groove with a lovely R&B vocal sample and chilling sine wave synth. His complimentary array of crafted FX and transitional elements add the finishing shine to this spirited and emotive jam.
