Posted by toastandjamrecordings - 2023/03/29 04:31

The Toast & Jam Remixed series returns with two top shelf remixes of Kraymon's Cyning. Up first is OMEGA with an electro breaks offering that features the chanting sample from the original track, along with some fresh gated vocal fx and heavy filtered synth sweeps to give his remix that outer space punch. Leuce Rhythms is up next with yet another unique and creative breakbeat composition. Leuce's remix gives us some fresh acid synth work and a syncopated sawtooth bass line that come together to create a sonic journey for which you'll want to be sure you have your ticket punched.
