

Four Motion - Strike X30 **OUT NOW ON BANDCAMP!**

Posted by toastandjamrecordings - 2023/05/16 00:04

We have another helping of fantastic Spanish breaks for you with the new track Strike X30 by producer Four Motion. Strike X30 features a female vocal chant during the breakdown asking you to hit the club as it builds to the drop. The main drop is a squeaky clean affair with minimized hi-hats that make room for a tear out bassline that oscillates back and forth between a stereo-widened filtered element and a down-the-middle sawtooth element. The vocal loop filters back in and is joined by a funky synth line to round out the package.
