

Colombo - Delusion ***OUT NOW ON BANDCAMP!!!***

Posted by toastandjamrecordings - 2023/05/16 00:07

Delusion is Colombo's new tech-funk breaks roller and we can't wait to wheel this one out on the dance floor. With a vintage-sounding 808 drum kit and deep sweeping synth pads and chord stabs, Colombo once again reminds us that he is still on the forefront of breakbeat production. Delusion is a progressive journey into sound design and with Colombo as the captain this is a ride you don't want to miss.
