

Krack 'N' Dime(Slinky&Smithmonger) - DHF *OUT NOW*

Posted by toastandjamrecordings - 2023/06/10 05:43

Australian-based producers Slinky & Smithmonger have teamed up to bring us an incredible new breaks jam called DHF under their new production moniker Krack 'N' Dime. DHF is wielding some seriously heavy sawtooth bass line and synth worth straight from the land down under. High-end synths help round out the sonic field as monster drums drive the energy from start to finish. Vintage 2000's vibes will make DHF a mainstay in your rotation.
