

Jason Laidback Ft. SIMM - Promised Land *OUT NOW!*

Posted by toastandjamrecordings - 2023/06/13 02:57

Jason Laidback is bringing the beats and SIMM lends the vocals on their new track Promised Land. After a flanged-out intro, the beat drops in with a booming kick, acid synth, and SIMM's angelic vocals beckoning you to the promised land. The vibes are uplifting and ethereal, with enough drive from the drum programming to keep things pumping nicely on the dancefloor. Promised Land has some true breakout anthem potential and we can't wait to unleash it!
