

Four Motion & TRS - Flapjack *OUT NOW ON BANDCAMP!

Posted by toastandjamrecordings - 2023/09/21 03:25

Four Motion is back at it, this time collaborating with producer TRS, on a new track entitled Flapjack. The main female vocal chant leads the charge in the first breakdown taking us to the drop where we meet up with some squeaky clean drums and a bass line that incorporates both a sawtooth and square wave stacked element for maximum bounce. A male vocal chant joins the charge as synth stabs and the lead synth melody fill out the sonic field. Get ready to Flapjack all over that dance floor!
