

The Incredible Melting Man - Go Ahead OUT NOW!

Posted by toastandjamrecordings - 2023/09/27 05:05

Go Ahead is the latest slice of breaks coming at you from The Incredible Melting Man. Funky grooves and syncopated percussion elements are the order of the day for this tech-funk breaks roller. There's a mid section breakdown with a vocoded vocal loop building to the main drop with a thundering kick and bobbing bassline that dances nicely with some vocal fx stabs and record scratching. Big dance floor grooves from Melty on this jam.
