

GreenFlamez & Jordi Slate - Acid Flu **OUT NOW!**

Posted by toastandjamrecordings - 2024/01/18 19:05

Acid Flu is the latest offering from a collaborative effort between GreenFlamez and Jordi Slate as these guys look to infect dance floors far and wide. Big lush synths and a chopped up vocal wind up towards the drop, giving way to a meandering acid synth line as chunky big beat drums give Acid Flu all the energy it needs to keep heads bobbing and hands in the air.
