

Chevy One - Anthemic Rooster Remixed **OUT NOW!!**

Posted by toastandjamrecordings - 2024/01/18 19:14

If there's one way you want to be awakened at the crack of dawn, it's by this pair of Anthemic Rooster remixes from Kid Panel and F-Word. Kid Panel's peak time production prowess is on full display as he crafts a brand new piano roll and bass line to accompany the original vocal. Oozing energy, the Kid Panel remix will ensure no one is left sleeping on the couch in the corner. F-Word went with a UK Garage vibe for his reworking and introduces us to some new organ chord stabs and a wonky wobbling sub bass. His sound is surgically clean with his signature funky F-Word vibe. Choose whichever one rules your roost!
