Hey all,

Just a few quick words to let you all know our first label release is out now.

Rehab Riot - Dirt Kontrol (with 5Eleven remix)

First to step up from the clan is the Rehab Riot duo with their debut single Dirt Kontrol. This track is definitely funky with a capital F. Crisp beats, tight productions and a phat and funky bassline.

On remix duties we have the deep and twisted textures from 5Eleven. Four by four beats and wide atmospherics alongside a rolling bassline provide a perfect eerie backdrop for those early morning sets.

Support from Jay Cunning on Kiss FM, Sneak Kreeps, Jamie Robosapien.

Available for download now from Track It Down and Beats Digital

Cheers,
