Curtis B Take You (B-Phreak Remix) Review by "Mr. No Hands"

Getting freaky

Mississippi based label Royal One have been clocking up the air miles in this transatlantic hybrid monster. The German breaks lord B-Pheak has created something devastating with its dirty loops strapped to a grizzly bear of a bassline, held together with Gaffer tape, and controlled with a flappy panel gear box which leaves the party feeling truly broken.

Coming January 2008 to Beatport, DJDownload, Trackitdown, Junodownload, Itunes, Emusic, & Rhapsody MP3!!
