WOOOOT!

Yes our one year anniversary for Trans:verse, so we started with a trooperz release and now yes... we are bringing more firing business from the trooperz..

A side: Botza, we have a heavy floor banger here that screams from start to finish with a nice dramatic rest in between.

B side: Diablo, pure forward thinking here in this tune. This is a new direction for this spanish duo. Diablo has a steady rumbling sub throughout to keep your head banging accompanied with a trademark trooperz crunchy beat.

I could talk about these tunes, but I really do think they speak for themselves.

DIGITAL RELEASE OF THIS VERY SOON....

12" available for presale on breakbeatonline and Juno...

official release date 4-23-07
