heres some blurb!

How To Pick Up Chicks , the long awaited release from Supatronix head honcho Jurassik, powers through dance floors with lush synths, unashamed breakbeats, a big dirty bass line and clear instructions to ensure male clubbers the world over won't be going home alone.

Heading up remix duties, Breakspoll award-winning DJ and producer, Plaza De Funk, delivers a big, bold, bouncy, dancefloor destroying track. Pounding beats, bleeps, squeaks, and one seriously massive bassline are fused with chopped up elements of the original to great effect. Recently featured on Plaza DJ mix aired on Annie Nightingales Radio 1 (UK) Show.

Rounding things off, up-and-coming producer and label boss Joebot, takes time off from his hectic DJing schedule and residency at acclaimed club night Spectrum to turn out an electro-breaks gem. Keeping things broken, Joebot takes the vibe to an altogether more blissful rolling place with a remix that has already proven to be a winner on the dancefloor.

All tracks are mastered by Shane the Cutter @ Fynl Tweek (Ex Heathmans) to ensure maximum sonic clarity.

picking up plays and support from the likes of:

Rennie Pilgrem, Jay Cuning (Kiss FM), Plaza De Funk, Cut La Roc, Steelzawheelz, Flore, Ben & Lex and 601 to name few
