5. One In The Front
6. Show Me What You Do
7. Handz Up
8. Make A Living
9. Dancehall Thrilla
10. Baila Baila
11. Keep It Pushing
12. Angels

Deekline & Wizard have always been ambassadors for a strong vocal and this new album is loaded with star turns amassed on their travels. A trip to North America unearthed Florida's red hot, eccentric, hip hop, duo Yo! Majesty whose vocals add a hint of salt 'n' pepper on 'Show Me What You Do'. In Detroit they worked with ghetto tech pioneer DJ Assault who adds his baritone twang to the minimalistic, A-Town sound and club anthems of 'One In The Front' and 'Keep It Pushing' (also featuring Freq Nasty). Whilst Canadian chart topper MC Flipside added his party starting, hip hop vocals to the gigantic 'Handz Up' club hit, which features the mighty Stanton Warriors on remix duties. And we've only just got started.

Searching for the perfect beat, the pair continued to criss-cross the globe seeking out high end talent to grace their new album. Classical string arranger extraordinaire Andronia Popova from Bulgaria provided a depth of listening on singles 'Angels' and 'Dancehall Thrilla', two cuts that perhaps best showcase the increased musicality Deekline & Wizard's new productions offer. In addition, the latter track brought the boys full circle and back to London where they hooked up with the achingly cool Hadouken, MC Navigator, Top Cat, Fallacy, Yolanda (Bugz In The Attic) and even some gospel vocalists. There's never been any doubt that the Deekline & Wizard pairing can produce consistently exciting club smashes, but on 'Back Up, Coming Through' the pair have produced hook heavy joints set to take them to kitchen radios and car stereos around the country.
