Fresh on the heels of Doggy Bag, K.GoL drops some Ghetto Hardcore with his latest offering in the form of Pusher! A pure underground breaks infested bouncing 4/4 hype track full of underlying breaks that holler out to the dance floor to get people jumping.

Recent South West Breaks & DnB award winners Ben and Lex pour a gut full of bass into the remix to create an anthem that'll have hands and pints chugging in the air. Full of warping bass and an incessant groove that will keep everyone moving past the tracks pinnacle. Exeter's finest have arguably turned out their greatest remix to date.

With support from Baobinga, Atomic Hooligan, Rico Tubbs, Mikix The Cat, Pirate Soundsystem, Tomb Crew, Flore, Adam G (C23 Management), DJ Absurd, Bombaman, Pitch Lab and SometimesSean. Pusher has proven to be a valuable track in many a DJ's arsenal. Available to buy now from JunoDownload, Trackitdown.net, DJ Download, iTunes and more.
