OUT June 19th!

Electronic Confessions - Time Morphs

Track 1:

Electronic Confessions - Time Morphs

Track 2:

Electronic Confessions - Lia

Maschinen Musik 14 brings you the summer with two brand new shining gems out of the skillful hands of Dennis Richter aka Electronic Confessions. Musical mastery combined with an outstanding feeling for atmosphere, beats and bass.

"Time Morphs" opens up with a relentlessly driving beat, heavy bass sweeps, and cool atmospheres, contrasted with glittering melodies and soft pads. A track that is more than just another dancefloor tool, but a piece of music that captures ones mind and puts a smile on your face.

"Lia" stays true to this concept and takes the musicality of "Time Morphs" even further. Irresistible grooves, funky bleeps and a pad melody that captures the warmth of the rising sun. Machine Music indeed, but with a natural ease and melodic qualities, that haven't been seen on Maschinen Musik like that before.

Maschinen Musik 14 will be a digital release and will not be available on vinyl or CD. The record is distributed worldwide through MTunes ([www.deeep.net](http://www.deeep.net)) and will be available for download on most major download platforms including junodownload, Musicload, Trackitdown.net, iTunes, and many more.
