

ALLFLAWS release new album

Posted by darkvex - 2009/08/17 06:33

UK alternative entity Allflaws dropped a new album BLACK BOX HERE AFTER on August the 14th. The album is released off the back of the new subversive single REPLICANT BREED which is out now. Allflaws have gained underground kudos for the progressive and original lyricism merged with interesting electronic beats and arrangements. Intelligently mixing up industrial, hip hop, trip hop and dance sounds with poetic sociopolitical vocals that deliver a strong and potent message.
