

Tear it Down clip

Posted by Alterity - 2008/01/09 07:32

JUst posted a new production on my myspace page. Lookin' for feedback before I start passing out promo mp3s. You can take a listen and leave feedback here:

wow man your concepts are great. i really like the way you put your samples together. but your beats suck really bad. Im not trying to diss you at all. i think you have a lot of talent but you need to bring that hard beat. if you ever wanna collaborate hit me up.
