WAVEWHORE

Broke Recordings – BreaksFM - Electrofly Records – BombTraxx – Nexus Artist Management – New York City, USA

With releases on high profile record labels such as Broke, BreaksFM, Electrofly and BombTraxx, New York City based Waveshore is quickly building a reputation as one to watch in the global breakbeat community. His skills behind the decks have also led to headlining appearances across the US and in Europe and he has appeared as a guest on Annie Nightingale's show on BBC Radio 1 London, Jay Cunning's Breakbeat Sessions on KISS FM London and Liquid Todd's radio show on WKTU 103.5 FM New York. In addition, Waveshore is a resident at the Sullivan Room, one of New York City's premier underground venues, and he regularly hosts 'The Audio Tactics Sessions' on the Breakspoll award-winning BreaksFM internet station.

Waveshore began his career as a heavy metal guitarist performing in clubs while he was still in high school and his first electronic release dates back to 1992. In 2007, Waveshore was nominated for the Breakthrough Producer category at the annual Breakspoll Awards in London and his cutting edge music has received high level support from many of the top names in the business including Aquasky, General Midi, DJ Ikey, The Autobots, The Freestylers, Elite Force, Drumattic Twins and many more. As a musician, he stands apart in his ability to produce a wide variety of styles within the breaks genre with quality results. His diversity in production also carries into his DJ sets which blend many styles of breaks from funk to bassline to tech into powerful and effective mixes that whip the dance floor into a frenzy.

Waveshore's name is derived from his addiction to manipulating audio waveforms and from all appearances he promises to be an inspiring force in electronic dance music. For more information visit www.waveshore.com or www.myspace.com/waveshore
