V.I.M. Breaks (Very Important Music) has been running since 2007, and is now on more than 120 releases strong. The output from V.I.M. covers a wide range of Breakbeat styles, and their tracks are a constant feature in the beatport breaks top 100 as well as magazines and radio shows worldwide. With originals and remixes from some of the biggest names out there, the label also is a massive support to the nu breed of up coming producers.

Label manager Grigoris Savidis aka Pale Penguin has to be one of the hardest working people in Breakbeat, running the label, scouring out upcoming producers, DJing, and even finding the time to produce tracks along with his pals Echonomist and Mr.Lookman as The Scientifics.
