

128 or even more kbps?

Posted by desmosom - 2007/07/02 02:45

Hi there!

first of all: nice that you relaunched nubreaks! :bounce:

i definitely enjoy the radio sionce it's online... would have missed u on breaksfm otherwise..

but: when or why don't you put on a 128 or more kbps stream? 96 kbps is a bit low quality.... allright to listen to, but not satisfying...

greetz from Tyrol Austria :wave:

keep it up!

hello hello.

the 96 does sound great for what it is. We do have plans of higher quality streams later on after we r established. its all a process and well keep building and changing to become a betta site n station ;)
