The Hydra: Bugged Out Presents Night Slugs with Bok Bok, L Vis 1990, Jam City, Girl Unit, Soundstream / 15th Dec / XOYO London

The final month of The Hydra kicks off with Bugged Out present Night Slugs on Saturday 15th December, which showcases the London imprint's finest talents and one of their personal heroes. The special guest this time around is Disco enthusiast Soundstream who's remarkable edits and sample-laden cuts have seen the Panorama Bar affiliate build up a repertoire of buy-on-site releases that bring back hazy memories of yesteryear. Label-heads Bok Bok and L-Vis 1990 are known for their genre-defying sets that can range from Garage to Techno to early UK Grime and have been known to go back to back for hours on end. Jam City's recent Classical Curves LP has seen the producer come into his own both technically and musically whilst Girl Unit has been playing around with live 808's and synthesizers by the sounds of his latest Club Rez EP so don't surprised if he drops the odd Prince tune in his set.
