THEM is back for a dark session of raw techno, acid, electro, rave and UK hardcore/jungle influenced noise to put Corsica's Funktion One system through its paces.

Headlining the Techno line up in room 1 is the legendary Dave Huismans aka 2562 in his A Made Up Sound Moniker, alongside Avian Record boss Shifted, Pariah who is part of legendary R&S records and one half of Karenn, and featuring a rare live appearance from Perc Trax's Mondkopf.

In room 2 the brakes are taken fully off and discarded with a music policy of intense techno, electro, acid, hardcore & instrumental grime. Turbo records' artists and retro futurists Shadow Dancer head the bill, joined by an eclectic rinse from the ever evolving Randomer, and topped off by a demonic debut from J.tijn, a key artist in Untold's new "relentless noise" imprint Pennyroyal. With support from Them Residents Moto & Bagheera.

Room twos programme is some way in tune with the ethos of THEM records, coming later this year...
