Hi everyone!

Feverish preparations are underway here at Breakthrough Towers as we prepare for our first live broadcast of The Breakthrough Sessions tomorrow (23rd April) at 5pm GMT. We've got an international feel to the show with Breaks and Drum N Bass from Australia, the US, Russia and Japan via Germany!! Show casing the best in underground and unsigned music from across the broken beat spectrum on the second Thursday of the month, before we peruse through the freshest Drum N Bass releases on the fourth Thursday - all broadcasting from the biggest Breaks station in the UK - www.nsbradio.co.uk I hope you'll swing by and give us a listen! If you are a producer and have some tunes you'd like to hear on the show you can send in 320mp3's along with any promo info ie; gigs releases, websites etc to

djdopejack@live.com

and you too can hear your tunes on NSB's hallowed airways!! Look forward to hearing from you. Hope you enjoy the show everybody!!

PEACE
