KUBIKS:

Kubiks or Doug Ross to the non drum and bass world has emerged as a key artist in recent years. Spending most of his life based in Bristol he discovered his love for drum and bass after seeing Roni Size, Die & Krust DJing in Lakota in '98.

In 2002 Kubiks had his first release on the infamous label 'Tangent' managed by John B and soon after launched Rubiks Records with partner BCEE. With a string of releases on his label Kubiks met a new face to Bristol, Davide Carbone and soon discovered a hugely successful partnership. The pair went on to release on a number of labels including 31 Records, Industry, Renegade & Defunked.

In 2005, Kubik's met up with Lomax and a new team was formed bringing a new collaboration of production skills and experience. Kubiks & Lomax managed to release an amazing '30' releases on labels such as V Recordings, C.I.A, DeFunked, Nu Directions, BS1 & Sperhead. In 2007, they took 6 months out to write their debut Album 'Speak Life' which was released on German label 'Phunkfiction Recordings'

Now residing with his family in Chichester on the south coast of England, Kubiks continues to maintain an important role as both a national and international drum and bass artist...
