Sound Control, 1 New Wakefield St, Manchester

11pm - 4am

£8 adv, £10 otd

Adv £8 tickets from here - <http://www.skiddle.com/events/11357677/>

After a sell-out L&D with Krafty Kuts, we welcome the mighty HYBRID (DJ set) to Lowdown & Dirty as part of their tour to promote their brand new album - Disappear Here.

Since first bursting onto the scene with the now classic album Wide Angle in 1999, the Swansea, Wales-based Hybrid have been known as one of the most forward thinking and technically skilled acts in electronic dance music. Blurring the line between in-studio production and live presentation, Hybrid are one of the few remaining dance acts to perform live with a classic band setup.

Though, much has changed on the road to Hybrid's fourth artist album Disappear Here. Most notable is the addition of Hybrid's third member - singer/ songwriter Charlotte James - to go along with founders Chris Healings and Mike Truman.

Charlotte's impact is marked as Disappear Here is truly an album of real songs and not merely dance beats with vocals on top. It offers a lot more than anything Hybrid has ever previously written and pushes boundaries in every way.

With Disappear Here, Hybrid have managed to create an epic and unique sound which has progressed dramatically from its original dance inception but still retains much of what makes electronic music so exciting. The album features guest vocals from Tim Hutton, drums from Alex Madge and the City of Prague Philharmonic Orchestra.

Come and hear Hybrid at the amazing Sound Control.
