Hey everyone, its time to tell you about our next event...

We are very excited to have the incredible tear-out breakbeat sounds of A DOMINANT SPECIES hit the decks of Manchesters finest breaks night. This event will well and truly earn our name of LOWDOWN & DIRTY!

A DOMINANT SPECIES consists of 3 members, all extremely talented in their own right, check this...

SPECIAL A

This dude has been around almost as long as digital dance music. In the early '90s he was a pioneer of the MC scene, he was the first MC for Suburban Base Records he toured with Sonz Of A Loop Da Loop Era who's massive old school anthem "Far Out" took the dance floors and the u.k chart by storm! " Since 2003 he has released solo drum and bass material on DnB labels Frequency and Zinc's label - Bingo Beats. This guy is a LEGEND!

ANYA

This foxy lady is inspired by Funk in the 70's, Rock in the 80's, Dance in the 90's and D'n'B throughout. It was a natural progression for Anya to step into the male dominated world of DJing. After years out there on the dance floor herself, she knows what the crowd wants and knows how to deliver it!! Anya's 4-year residency at Sessions has seen a progression from a funky vocal style to that of a fatter breaks sound that is both clever and eclectic.

DOM ALMOND

Dom is both a prolific live DJ and producer. He burst onto the breaks scene at the end of 2006 with a NU Skool breaks style vocal tune "Shake It"; the track has since been featured on Global Underground and Ministry of Sound compilation cd's. Dom has had a steady flow of material released and remixed for various labels. His most recent releases can be found on Pure Filth (Hardcore Beats).
