The most important musical event in this summer will be born last weekend in August. Benidorm, in Alicante (Spain) has been the place of choice for Orosco Producciones to making Electrobeach Festival, meeting where thousands of young people from all the countries in the world, lovers to electronic culture, will be able to enjoy best music in the international scene. We are talking of artists as Carl Cox, Sven Väth, Richie Hawtin, Cristian Varela, Reeko, Christian Smith, Dj Murphy, Markantonio, Mo' Horizons, Humanik...

Electrobeach will develop in three different places: Electrosunset, where we will have beautiful watches of dusk in the beach while we listen the most quiet sounds; a pavilion where, on Friday, the best deejays will make vibrate public, and some clubs through the city for having the best time on Saturday.

You can take part in this new experience in Mediterranean coast for only 40€ until the end of July. The tickets can be bought in Musikaze.com/electrobeach

As well, we offer many options for accommodation in Benidorm. In our site you can find out about the official camping, or even some offers in different hotels with the entrance included.

One more time, Orosco Producciones invite us to have fun in the musical event of this summer. Coming to Spain in August is worth it.
