General Rules for the Track Reviews Forum

1: As voted upon by the members of this community between April 23 and May 13, 2004, the constraint for what material may be posted here is simply that it be released (past or future) track. You may post about your own track or someone else's, provided it's a finished work. Works-in-progress and unsigned peices are to be posted in the "Music Feedback" section. The moderators may arbitrarily move items that do not appear to be in the appropriate subforum.

2: Use the search function at the top of the thread index if you're not sure if your track has been posted. Of late this hasn't been a problem, but when stuff gets crazy we can end up with several threads about one song and that can just be confusing to keep up with the discussion.

3: Same rules as General Discussion. Just practice the Golden Rule we've all known since kindergarten and all will be well.

Thanks
