Dirtee is the name!
Breaks is the game!

Ive been a Dj 14 years long in which ive mixed many genres from drum and bass to house and garage but breakbeat is my true passion!

after djjng for many years playing at small local gigs and some fm radio stations i first started to play breaks to on internet radio on a station called www.ukflow.tv.
this station had no audiance for breaks as it is located in the garage land of london (aka children music for people that need to grow up and realise that thier sound has turned to absolute crap),
so i moved onto other radio stations like www.radioglitch.com and www.citybeatradio.org where my sounds were appreciated!
(i also delved into a little jackjing house which i mix every now and then and citybeat being a house station like the sound of my shit)

Time for Dirteebreaks to reach the breaksheads!! so i got my self a set on the radio station for the record label ibreaks (www.ibreaks.co.uk) polayed there for like 2 years until it shut down.

then came soundcheck!! who dont want to run thier own station, thier own way, playing what they want?

rules may have been broken setting this station up (my so called ibreaks agreement lol) but the station in my eyes is mainly for local gain if not just a hobby!!

But yet again not many breaks listeners on SCR

so i applied for Nubreaks and here i am! THE DIRTEEBREAKS SESSIONS Start Soon on Nubreaks!

so thats me off the top of my head!! but enough of the bollox!! download a dirteebreaks mix and blolw ya speakers!!
remember to tune into my live show! or there will be trouble!!
