aight,

had to come back and give some serious fuckin props...damn u guys are so fuckin OG and unique with ur sets, im a net radio whore, listen to everything from Ministry to SpaceDJS to Sonny/Henry Rollins to

Fugazi to Clutch to Led Zeppelin to Smooth Soulfoul House(audiogrooves.net)....but the only site i been @ for breakbeat fo ever is breaksfm...which i give the mad respect that it deserves...due to the like of: DIRTY SOUTH,TAMSIN,brokenhome,saints etc.

BUT, most of the tracks on your throwdown i have not heard, which means what I already knew...u2 are the KINGS OF DIVERSE ORIGINAL SESSIONS....if that makes any sense....funky yet dark...hypnotic yet aggressive.....techy/housey..... BREAKBEAT, VERY FEW CAN TAKE THESE TRACKS AND MAKE IT GROOVE THE WAY U2 DO.

again...i dunno if this makes any sense, and no im not suckin ur ass...cuz you guys do throw ur share of boring lame sets....but out of the few years ive been a fan, those are few and far between...just wanted to thank you and give you the respect you deserve...BIATCHES!!!

late

anybody who has any problems with the statements made in this post can....piss off.
