Make sure you listen to Taste of Down Under on the 25th August - with our special guest Dopamine (TCR, Titlefight, REC records)

- joining us live in the studio for a mix and to play us a bucketload of his new stuff.

and just confirmed for the 9th september -

Frew (vacation records - www.vacationrecords.com) - this newbie aussie producer may have only a couple of releases under his belt but they have been picked up by the likes of plumps, micky slim, bass kleph and more..

Doug and norman have been hammering "get doh" and "call of the crow" in recent weeks.... and weve managed to blackmail the man himself into coming in for a mix...

times are 3pm sydney, 1am florida and 6am london..
