### STEVE MACCABE

Steve Maccabe is one of the key members of V.I.M.BREAKS family. The prolific British Tech-Funk/Deep-Breaks producer is one of the hottest names in the Breaks since his first release for V.I.M.BREAKS back in 2010, for TOY QUANTIZE's "WEATHER CHANGE/POPSKY" single. Since then he managed to build a really strong and continually rising profile in the scene with awesome singles and remixes for V.I.M.BREAKS and DIABLO LOCO RECORDS (check out his awesome collaboration single "ODYSSEY" with SYSTEM 2). His sound is deep, rollin and Techy with great Acidic influences while his alias FELTZER is more Tech-Funk oriented. Watch out for his forthcoming DEEP GARNET RECORDS single "CASE IN POINT" and a forthcoming REMIXES EP for V.I.M.BREAKS SPECIAL EDITION SINGLES series later this year.
