

Ionized Breaks is looking for some wicked tracks

Posted by IonizedRecords - 2014/05/17 00:21

Ionized Records was established in January 2014 by a finnish electronic producer Sami Määttälä (Valve, Autio & Maattala). The label focuses on releasing high quality trance, mainly melodic and uplifting, but also tech-styled trance as well as more classic style of trance.

Ionized Breaks is a sublabel to Ionized Records, concentrating on bringing you high quality breakbeat, drum & bass and dubstep.

If you have a track (or tracks) laying around you think would be perfect for Ionized Breaks, then send us a demo to demos (at) ionizedrecords.com. Every demo will be listened to and replied to.

Hoping to hear from you soon!
